			M5-8mm Screw*6
			M5 Nyloc-Nut *6

[Step1] Fix Angle-Connector to the T-nuts in the x-axis with M5-8mm screw.

**[Step2]** Then use M5-14mm screw to pass through y-carriage aluminum and Angle-Connector. Secure with Nyloc-Nut.

The installation method of other Angle-Connectors is the same (2 Angle-Connectors on each side of the front and 1 Angle-Connector on each side of the back of the x-axis)
